Professional summary

Results-oriented Full-Stack Developer with a track record of delivering innovative web and mobile applications. Skilled in ASP.NET, React, and JavaScript to build high-performance, user-friendly solutions. Committed to staying up-to-date with industry trends and continuously enhancing technical expertise.

Work Experience

Associate Full-Stack Web Developer,

Holtec Asia, Pune, Maharashtra | July 2022 – September 2024

- Contributed to the development of web and mobile applications, including Camden County PD Caminspection, Holtec BudgetTracker, and TallyConn, using ASP.NET and React Native for domains such as accounting, financial planning, HR, and equipment management.
- Optimized performance through code refactoring and complex SQL queries, while independently developing new modules from scratch following Agile methodologies.
- Deployed, monitored, and maintained high-performance applications in production, collaborating with product teams to implement new features and resolve customer issues.
- Designed RESTful web services for dynamic data manipulation and improved system efficiency.

Lead Software developer

Please Sit Down Media | September 2024

Working towards building web products and mobile app for Please Sit Down Media ,an upcoming edutech firm .

Projects

Equipment Inspection app | React Native , JavaScript, Redux , Axios , MS SQLServer ,GIT

Developed a Proof-of-Concept app for Holtec Securities International using React Native for hybrid platforms. Utilized Redux for state management and Axios for backend communication with a RESTful API. The app streamlined hardware management and service scheduling for clients across the CCPD campus by simplifying documentation and maintenance workflows.

Ice N Fire | React.js, React Router , Tailwind CSS, Restful API

Built an app as a fun project to collect and display data of different Game of Thrones characters, Books and Houses ,by accessing the open source ice and fire API to source data, behaving like an interactive library for GOT fans. Available on GitHub.
